- Pack of 10 – Standard: 2-3 Working Days

PRODUCT DESCRIPTION

ClassicBond EPDM Gutter Trim Joiners simply clip into place, made from the same gloss finish uPVC, creating a neat, seamless appearance.

Kerb Joiners are used to secure the edge of the roof where water does not drain into the gutter. This trim acts as a barrier to water at the edge of the roof. Therefore, is suitable for both professionals and DIY enthusiasts because our kerb joiners are versatile and incredibly easy to install.

With a hi-gloss and smooth finish our Kerb Joiners provide a sleek and stylish finish to any roofing project. In addition, its low profile allows for a seamless style and is an essential roofing component.
