- Pack of 100 – Standard: 2-3 Working Days

PRODUCT DESCRIPTION

ClassicBond Seam Fastening Plates are designed to be used in conjunction with ClassicBond RUSS strips. Together, they are used to clamp the RUSS to the vertical or horizontal surface securely. The appropriate fasteners must be selected for the substrate to ensure that the results delivered are as expected.

Typically, ClassicBond should be mechanically secured wherever an inside angle of greater than 15 degrees occurs. With ClassicBond Seam Fastening Plates and RUSS strips, you will be able to accomplish this goal quickly, and easily. Installation of these plates couldn't be simpler, so even if you're a complete novice, you'll have no trouble working with these.
